The Committee on Ways and Means (Atwater) recommended the following amendment:

Senate Amendment

On page 55, line 16, through page 56, line 11, delete those lines

and insert:

(12) "Electrical power plant" means, for the purpose of certification, any steam or solar electrical generating facility using any process or fuel, including nuclear materials, except that this term does not include any steam or solar electric generating facility of less than 75 megawatts in capacity unless the applicant for such a facility elects to apply for certification under this act. This term and includes associated facilities, including offsite facilities, to be owned or operated by the applicant which directly support the construction and operation of the electrical power plant and which are physically connected to the electrical plant site or which are directly connected to the electrical power plant site by other proposed associated facilities to be owned by

Bill No. CS for CS for SB 888

1 the applicant such as fuel unloading facilities, pipelines
2 necessary for transporting fuel for the operation of the
3 facility or other fuel transportation facilities, water or
4 wastewater transport pipelines, construction, maintenance and
5 access roads, railway lines necessary for transport of
6 construction equipment or fuel for the operation of the
7 facility. The term shall also include ~~and~~ those associated
8 transmission lines owned or operated by the applicant which
9 connect the electrical power plant to an existing transmission
10 network or rights-of-way to which the applicant intends to
11 connect, ~~except that this term does not include any steam or~~
12 ~~solar electrical generating facility of less than 75 megawatts~~
13 ~~in capacity unless the applicant for such a facility elects to~~
14 ~~apply for certification under this act. Associated facilities~~
15 ~~An associated transmission line~~ may include, at the
16 applicant's option, offsite associated facilities that will
17 not be owned by the applicant, offsite associated facilities
18 which are owned by the applicant but which are not directly
19 connected to the electrical power plant site, any proposed
20 terminal or intermediate substations or substation expansions
21 connected to the associated transmission line, or new
22 transmission lines or upgrades or improvements of an existing
23 transmission line on any portion of the applicant's electrical
24 transmission system necessary to support the generation
25 injected into the system from the proposed electrical power
26 plant.
