Senator Bennett moved the following:

**Senate Amendment to Amendment (926992)**

Between lines 199 and 200

insert:

(d) Any negotiated contract or power purchase agreement negotiated under this section, which the price per kilowatt hour is below 80 percent of the utility's average retail rate, the purchasing utility shall earn its last authorized rate of return set by the commission on the price of the power purchased and the amount the utility earns shall be included in the price cap of this section.
