---

Senator Bullard moved the following:

**Senate Amendment**

Delete lines 49 - 64  
and insert:  
age who have documentation by an examining physician which  
includes information regarding at least one fetal characteristic  
or condition diagnosed intra-utero which would characterize the  
pregnancy or delivery as high risk, including structural  
abnormalities of the digestive, central nervous, and  
cardiovascular systems; disorders of genetic malformations and  
skeletal dysplasia; and acute metabolic emergencies.  
Documentation of babies who are born of mothers who have  
rheumatologic disorders would also be included. This paragraph

489554

14 shall not preclude a specialty-licensed children's hospital from  
15 complying with s. 395.1041 or the Emergency Medical Treatment  
16 and Active Labor Act, 42 U.S.C. s. 1395dd.
