549 **Section 7. Section 259.1053, Florida Statutes, is amended**
 550 **to read:**

551 259.1053 Babcock Ranch Preserve; ~~Babcock Ranch Advisory~~
 552 ~~Group.~~—
 553 (1) SHORT TITLE.—This section may be cited as the "Babcock
 554 Ranch Preserve Act."
 555 (2) DEFINITIONS.—As used in this section, the term:
 556 (a) "Babcock Ranch Preserve" and "preserve" mean the lands
 557 and facilities acquired in the purchase of the Babcock Crescent
 558 B Ranch, as provided in s. 259.1052.
 559 (b) "Commission" means the Fish and Wildlife Conservation
 560 Commission.
 561 (c) "Commissioner" means the Commissioner of Agriculture.
 562 (d) "Department" means the Department of Agriculture and
 563 Consumer Services.
 564 (e) "Executive director" means the Executive Director of
 565 the Fish and Wildlife Conservation Commission.
 566 (f) "Financially self-sustaining" means having management
 567 and operation expenditures not more than the revenues collected
 568 from fees and other receipts for resource use and development
 569 and from interest and invested funds.
 570 (g) "Florida Forest Service" means the Florida Forest
 571 Service of the Department of Agriculture and Consumer Services.
 572 (h) "Multiple use" means the management of all of the
 573 renewable surface resources of the Babcock Ranch Preserve to
 574 best meet the needs of the public, including the use of the land
 575 for some or all of the renewable surface resources or related

576 services over areas large enough to allow for periodic
 577 adjustments in use to conform to the changing needs and
 578 conditions of the preserve while recognizing that a portion of
 579 the land will be used for some of the renewable surface
 580 resources available on that land. The goal of multiple use is
 581 the harmonious and coordinated management of the renewable
 582 surface resources without impairing the productivity of the land
 583 and considering the relative value of the renewable surface
 584 resources, and not necessarily a combination of uses to provide
 585 the greatest monetary return or the greatest unit output.

586 (i) "Sustained yield of the renewable surface resources"
 587 means the achievement and maintenance of a high level of annual
 588 or regular periodic output of the various renewable surface
 589 resources of the preserve without impairing the productivity of
 590 the land.

591 (3) CREATION OF BABCOCK RANCH PRESERVE.—

596 (b) The preserve is established to protect and preserve
 597 the environmental, agricultural, scientific, scenic, geologic,
 598 watershed, fish, wildlife, historic, cultural, and recreational
 599 values of the preserve, and to provide for the multiple use and
 600 sustained yield of the renewable surface resources within the

601 preserve consistent with this section.

602 (c) This section does not preclude the use of common
 603 varieties of mineral materials such as sand, stone, and gravel
 604 for construction and maintenance of roads and facilities within
 605 the preserve.

606 (d) This section does not affect the constitutional
 607 responsibilities of the commission in the exercise of its
 608 regulatory and executive power with respect to wild animal life
 609 and freshwater aquatic life, including the regulation of
 610 hunting, fishing, and trapping within the preserve.

611 (e) This section does not interfere with or prevent the
 612 implementation of agricultural practices authorized by the
 613 agricultural land use designations established in the local
 614 comprehensive plans of either Charlotte County or Lee County as
 615 those plans apply to the Babcock Ranch Preserve.

616 (f) This section does not preclude the maintenance and use
 617 of roads and trails or the relocation of roads in existence on
 618 the effective date of this section, or the construction,
 619 maintenance, and use of new trails, or any motorized access
 620 necessary for the administration of the land contained within
 621 the preserve, including motorized access necessary for
 622 emergencies involving the health or safety of persons within the
 623 preserve.

624 ~~(4) BABCOCK RANCH ADVISORY GROUP.—~~

625 ~~(a) The purpose of the Babcock Ranch Advisory Group is to~~

 666 ~~112.061.~~

667 (4)~~(5)~~ MANAGEMENT OF PRESERVE; FEES.—

668 (a) The department shall assume all authority provided by
 669 this section to manage and operate the preserve as a working
 670 ranch upon the termination or expiration of the management
 671 agreement attached as Exhibit "E" to that certain agreement for
 672 sale and purchase approved by the Board of Trustees of the
 673 Internal Improvement Trust Fund on November 22, 2005, and by Lee
 674 County on November 20, 2005.

675 (b) Upon assuming management and operation of the

676 preserve, the department shall:

677 1. Manage and operate the preserve and the uses thereof,
678 including, but not limited to, the activities necessary to
679 administer and operate the preserve as a working ranch; the
680 activities necessary for the preservation and development of the
681 land and renewable surface resources of the preserve; the
682 activities necessary for interpretation of the history of the
683 preserve on behalf of the public; the activities necessary for
684 the management, public use, and occupancy of facilities and
685 lands within the preserve; and the maintenance, rehabilitation,
686 repair, and improvement of property within the preserve.

687 2. Develop programs and activities relating to the
688 management of the preserve as a working ranch.

689 3. Establish procedures for entering into lease agreements
690 and other agreements for the use and occupancy of the facilities
691 of the preserve. The procedures shall ensure reasonable
692 competition and set guidelines for determining reasonable fees,
693 terms, and conditions for such agreements.

694 4. Assess reasonable fees for admission to, use of, and
695 occupancy of the preserve to offset costs of operating the
696 preserve as a working ranch. These fees are independent of fees
697 assessed by the commission for the privilege of hunting,
698 fishing, or pursuing outdoor recreational activities within the
699 preserve, and shall be deposited into the Incidental Trust Fund
700 of the Florida Forest Service, subject to appropriation by the

701 Legislature.

702 (c) The commission, in cooperation with the department,
703 shall:

704 1. Establish and implement public hunting and other fish
705 and wildlife management activities. Tier I and Tier II public
706 hunting opportunities shall be provided consistent with the
707 management plan and the recreation master plan. Tier I public
708 hunting shall provide hunting opportunities similar to those
709 offered on wildlife management areas with an emphasis on youth
710 and family-oriented hunts. Tier II public hunting shall be
711 provided specifically by fee-based permitting to ensure
712 compatibility with livestock grazing and other essential
713 agricultural operations on the preserve.

714 2. Establish and administer permit fees for Tier II public
715 hunting to capitalize on the value of hunting on portions of the
716 preserve and to help ensure the preserve is financially self-
717 sufficient. The fees shall be deposited into the State Game
718 Trust Fund of the Fish and Wildlife Conservation Commission to
719 be used to offset the costs of providing public hunting and to

 729 activities authorized by this section.

730 2. Grant privileges, leases, concessions, and permits for
 731 the use of land for the accommodation of visitors to the
 732 preserve, provided no natural curiosities or objects of interest
 733 shall be granted, leased, or rented on such terms as shall deny
 734 or interfere with free access to them by the public. Such
 735 grants, leases, and permits may be made and given without
 736 advertisement or securing competitive bids. Such grants, leases,
 737 or permits may not be assigned or transferred by any grantee
 738 without consent of the Board of Trustees of the Internal
 739 Improvement Trust Fund or its designated agent.
